MEMORIAL.

Talent, one of the oldest settlements of Jackson County. For years just a "cross road", its pioneers did their full share in developing the country in which we now find peace and safety.

Yesterday was Memorial Day, a day on which for a brief moment we honored the dead, our own immediate relatives and friends who have departed, and our sturdy pioneer forefathers who nobly toiled and died for this country and its upbuilding.

Talent is a good place in which to live. The citizens as a whole are a group of home loving, moral, law-abiding people. They desire to raise their children to maturity with clean, trained minds, and with proper respect to the things good people hold sacred.

It is our duty to cultivate the social atmosphere conducive to such development—to support the institutions, the school, church, and social organizations that are important factors in the lives of each of our

It is our duty as good citizens to actively oppose any influence or factor that tends to tear down character, or lead to demoralization.

For such influences Talent has no room.

No, we haven't forgotten to write about the need of an organized fire department and new equipment.
